+92-315-7511825 | ansarsultan2002@gmail.com | Bahria Town Phase 6, Islamabad | Github | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of hands-on experience building modern, responsive web applications using Next.js, React.js, NestJS, Node.js, PostgreSQL and MongoDB. Experienced in RESTful APIs, JWT/OAuth authentication, payment integrations, realtime features, CMS integrations and role-based dashboards. Proven experience delivering marketplace, booking and event-ticketing workflows across frontend and backend systems.

## EDUCATION

## PROJECTS

### Elite Club Fitness - Gym and Fitness Platform

#### Full Stack Web Application

- \* Developed a responsive gym and fitness platform enabling users to explore gym facilities, memberships, personal training services, and fitness offerings.
- \* Implemented membership registration and Join Now workflows to streamline the onboarding process for new gym members.
- \* Built a Personal Trainer booking system allowing users to select PT packages, schedule training sessions, and complete online payments.
- \* Developed gym information, facility tour, testimonials, contact, location, and opening-hours sections to provide a complete digital experience for members.
- \* Integrated fitness app functionality that enables members to track their progress, book fitness classes, and schedule personal training sessions.

- \* Worked across frontend and backend functionality to integrate application workflows, improve responsiveness, and deliver a smooth experience across desktop and mobile devices.

### **Car Pro - Car Rental and Marketplace Mobile Application**

*React Native (Expo), NestJS, PostgreSQL*

- \* Developed a full-stack mobile application using React Native with Expo, NestJS, and PostgreSQL for car rental and vehicle marketplace services.
- \* Implemented user and provider workflows allowing users to list their vehicles for rent or sale, rent available cars, and purchase listed vehicles.
- \* Built separate user and provider dashboards for managing vehicle listings, rental requests, bookings, purchases, and account activities.
- \* Developed vehicle search and filtering functionality based on make, model, price, availability, and other vehicle attributes.
- \* Integrated the mobile frontend with REST APIs for authentication, vehicle management, rental bookings, marketplace transactions, and user data.
- \* Implemented backend business logic and PostgreSQL data management using NestJS to support secure and scalable application workflows.

### **Vividhood – Beauty Salon Marketplace**

2026

- \* Built a scalable multi-vendor platform using Next.js, NestJS, PostgreSQL, and Tailwind CSS.
- \* Developed Admin, Provider, and User dashboards for marketplace operations and management.
- \* Integrated Stripe payment gateway for secure online payments and subscription handling.
- \* Implemented Strapi CMS to manage dynamic public website content and platform pages.

### **Book My Lime – Event Ticket Marketplace**

2026

- \* Built an event ticket marketplace for discovering events, booking tickets, and managing digital ticket access.
- \* Developed event browsing, marketplace, authentication, and ticket booking workflows.
- \* Implemented responsive UI for grid, list, and calendar-based event discovery.
- \* Integrated secure payment and instant ticket delivery features for a smooth booking experience.
- \* Created user-friendly public pages including featured events, platform benefits, testimonials, and support sections.

### **WYL - Vehicle Buying and Selling Marketplace**

*Full Stack Web Application*

- \* Developed a full-stack vehicle marketplace that enables users to browse, buy, and list cars for sale through a responsive web application.
- \* Implemented vehicle listing workflows allowing users to add and manage car information, including make, model, variant, color, price, images, and other vehicle specifications.
- \* Built advanced search and filtering functionality to help users discover vehicles based on make, model, variant, color, price, and other categories.
- \* Developed detailed vehicle pages to present specifications, pricing, images, seller information, and other relevant information to potential buyers.
- \* Integrated frontend workflows with backend APIs for user authentication, vehicle listings, marketplace operations, and data management.
- \* Worked across frontend and backend functionality to troubleshoot issues, improve application workflows, and deliver a responsive user experience across different screen sizes.

### **ELITE - Gym and Performance Sportswear E-Commerce Platform**

*Next.js, NestJS, PostgreSQL, Stripe*

- \* Developed a full-stack e-commerce platform for gym and performance sportswear, providing a responsive shopping experience across desktop and mobile devices.
- \* Built product browsing, category filtering, product details, variants, cart, checkout, and customer account functionality for a complete online shopping workflow.
- \* Implemented secure user authentication and account features, including customer profiles, order history, delivery information, and protected application routes.
- \* Integrated Stripe for secure online payments and developed backend order processing, payment status, stock validation, and inventory management workflows.
- \* Developed an admin dashboard for managing products, categories, inventory, customers, orders, shipping information, and order statuses.
- \* Built and integrated REST APIs using NestJS and PostgreSQL to manage products, customers, orders, payments, and application data.

## TECHNICAL SKILLS

---

**Frontend:** Next.js, React.js, Tailwind CSS, Responsive Design, Material UI, Strapi CMS

**Backend:** NestJS, Node.js, Express.js, PostgreSQL, MongoDB, RESTful APIs, Stripe Payment Method

**Languages:** JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

**Tools:** Git, GitHub, Postman, Vercel, Netlify

**Specialized:** JWT Authentication, OAuth, Stripe Integration, Socket.io

## SOFT SKILLS

---

Strong Communication | Team Collaboration | Time Management | Adaptability | Problem Solving | Attention to Detail
